Mr. A. D. Langstaff Makes a Plain Statement of the Situation.

CHICAGO CHARITY.

It IsAppealed for the Relief of Memphis.

How Much Is Needed and Just What It Is Needed For.

A Board of Trade Committee Is Promptly Appointed.

And the Work of Collecting Subscriptions Will Begin at Once.

The presence in this city of Mr. A. D. Langstaff, President of the Memphis Howard Association, and the errand of charity on which he comes, brought about a CONFERENCE yesterday morning between himself, President Jones, and Secretary Randolph, of the Board of Trade; J. W. Preston, Murry Nelson, and the Rev. Dr. Harris—the latter two gentlemen being members of the Relief Committees of last year. The conference was held in the Secretary's room of the Board of Trade Building and was private and informal. Its purpose was, in brief, to decide what it was best to do in the way of assisting the Howard Association in its noble work, and how to do it, and the discussion practically resolved itself into a series of friendly suggestions to President Dow as to the course of action to be pursued in the accomplishment of the object in view. Mr. Langstaff presented to the conference the nature and extent of the difficulties under which his friends were laboring, and appealed to his hearers to make an organized effort, as they had so nobly done the year previous, for the relief of the disease-stricken cities of the South. His long, practical experience as head of the Memphis Howard, and the still fresh experience of the two members of last year's Committee, served to furnish President Dow with all the necessary suggestions regarding the proper course of action to be taken. There was a unanimity of sentiment that Chicago ought to do something, and that there was a body of men who could and would readily respond to the call that the Board of Trade made. It was the opinion of all present that Mr. Langstaff could do the cause in which he is laboring no better service than by addressing the matter to the Board of Trade, and that the subject of telegraphs came up at the Paris session which was held last year. Mr. Blumhush suggested the creation of a new committee to study the international telegraph system, and our brave members within ten days became victims, nine of whom were so thoroughly poisoned that they never walked the earth again, but were soon buried in their graves. It was the fever that began to spread to the adjoining towns and cities. We will understand, then, that there is no time to lose if we are to have those who are once cured and who are well again result, to have them buried at once, as without such attention the disease would spread to every town in the land. Chicago and Memphis are the only two cities in the country where it is every day with trifling and prosperity, say to that sister, whose commerce is destroyed, and who is almost wrapped in the cold, clammy arms of death. "We must, I respectfully suggest, as far as possible, to have their remains interred in the ground of their respective cemeteries, to prevent their bodies from being exposed to the public gaze." The Howard and their fellow-workers in Memphis are standing like a wall between you and the pestilence, to prevent its spreading. With Chicago on one end, it is for you to decide; and I hope you will say yes. I have received from Mr. Potter Palmer, proprietor of the Palmer House, this morning the general details of the Howard's plan for the assistance of those who are in sympathy with the cause, to

APPOINT A COMMITTEE to receive donations for the suffering people of the South.

Mr. Langstaff stated that the President had appointed the following Committee, who were requested to meet in the office of the Secretary at 3:30 o'clock, for the purpose of organizing the Howard Association of the South, in behalf of the suffering people in and out of Memphis. Allow me to introduce Mr. Langstaff, President of the Howard Association of Memphis.

At 12 o'clock Mr. Langstaff, accompanied by President Dow and Secretary Randolph, mounted at the rostrum at the north entrance of the Trade room, and the crowd gathered in front. Secretary Randolph used his mallet and called the assembly to order, requesting silence in the room for a few minutes. The truthful Howard was compelled to state that the request was only partially observed.

President Dow, said:

GENTLEMEN: I have called you to order this morning to ask your attention for a few moments to a matter made by President Dow and the Howard Association of the South, in behalf of the suffering people in and out of Memphis.

Mr. Langstaff, and the members of the Howard Association of the South, in behalf of the suffering people in and out of Memphis, have been blighted, and the Howard Association of Memphis, in the name of the distressed, have been compelled to appeal to the Government for assistance. In the interest of that appeal, I stand before you to say a few words.

There is but little that I can add to what I have already stated through your papers. The appeal is plain and explicit.

RENT FORWARD.

Mr. Langstaff: I have called you to order this morning to ask your attention for a few moments to a matter made by President Dow and the Howard Association of the South, in behalf of the suffering people in and out of Memphis.

Mr. Langstaff, and the members of the Howard Association of the South, in behalf of the suffering people in and out of Memphis, have been blighted, and the Howard Association of Memphis, in the name of the distressed, have been compelled to appeal to the Government for assistance. In the interest of that appeal, I stand before you to say a few words.

BASE-BALL.

BOSTON VS. CHICAGO.

SURVEY, Sept. 9.—To Bond and Snyder belong the credit of defeating the Chicago to-day. A thousand people were on the grounds, a number never has been seen there this season—and the brilliant play of the Boston was highly applauded. Bond's pitching was more decisive than ever. Once only to-day, out of seven times, he failed on the only ball left (the one which he had to give up) to the Chicago. Williamson first batted. In the sixth inning, with seven on third (the third man to get on base), and five of six who tried), Peters was completely checked, and struck out. The Boston then scored their three runs in the second inning, as follows: Two successive doubles by Burdick and Morris earned Burdick's run. House got two on Quess's double, second on a played ball off the same (Morrell going to third), and then Snyder's hit advanced both on base. Houck came in on a wild throw of Shaffer's, which gave Snyder a second hit, a hard fly to left not in good style. Cogswell went out at first, but the play went the other end one. Jones hit to Peters and went out at first. Then five total bases—three hits and two errors brought in three runs, and two were earned. In the fourth inning the players got four runs, and were left on third base. In the seventh, a two-base-by Cogswell and a triple by Jones earned a run. In the next, Morris not third on a base-bit, a pitch, and passed ball; but he was left there. In the ninth, Cogswell was left on second after making a two-base. Shaffer, in the second inning, made the first safe hit the fourth man to bat, and was left on second base. He was thrown out at second while Cogswell was being out. Out went Peters struck out. Then Flint was given first by Sutton, who had a bad ball to handle, and Quet, hitting to first, was out. The fifth round was not changed. First, Williamson was sent on base, and Shaffer hit to Sutton. Both were put out. In the fifth round Morris made it, but Flint fouled out, and Brown and Quet were put out. In the eighth, Morris and Sutton went on a fit to Bond, Reusen his a one, went to second on a passed ball, and third while Cogswell was being out. Out went Peters struck out. In the seventh, Morris and Sutton did not change. First, Williamson made a safe hit, but was forced out by Shaffer. The latter took second on Brown's hit, and then picked up Morris' base. In trying to get home at first, Flint hit to Bond, Shaffer was caught between the bases; but, before he was out, Brown and Flint went on third and second. Quet went out at first, however, and left them. The last two innings were finished in this famous order.

CRIMINAL NEWS.

Yesterday's Testimony in the Chisolm Trial at De Kalb, Miss.

The Prosecution Proposes to Prove Conspiracy on the Part of Gully.

Witnesses Intimidated by the Threatened Wrath to Come.

Others Sadly Deficient in Memory at the Most Important Points.

A Bold Cattle-Robbery Effected Near Bloomington, Ill.

THE CHISOLM TRIAL.

Special Dispatch to The Tribune.

DEKALB, Miss., Sept. 9.—The trial of Henry J. Gully, for the shooting of Miss Cornelia Chisolm on April 29, 1877, was resumed at 9 o'clock this morning, Judge Hanna upon the Bench. The attendance was now so large and restive that no more than fifty or sixty persons being present in the court-room during the day. Mrs. Chisolm and Mrs. Gilmer, the widows of the deceased victims of the mob, were in the court-room most of the day, listening attentively to the evidence, and giving the prosecution such hints as to details as occurred to them. The proceedings were conducted with great decorum during the day, and without the dramatic effects usually accompanying a tragedy of this sanguinary character. The audience looked on and heard the audience-cried with an indifference either caused by the frequent occurrence of such events, or by previous familiarity with the details of this desperate and bloody encounter.

THE FIRST WITNESS. called to the stand was Mr. H. A. Hooper, who was examined in chief by Judge Morris for the prosecution. Hooper was originally suspected of being accessory to the murder of John W. Gully, but on an examination before the Justice of the Peace a day or two after was discharged, there being no evidence against him. However, it will be seen that Chisolm was brought there, and during the trials he walked out. He stated that he saw some of the shooting which occurred there on that memorable occasion, but he heard some of it. He was in the Court-House yard at the time Rosser's head was shot off, and when he was dragged out by the heels dead. He saw McLeish, but it was after he had been assassinated by the mob assembled at the jail to wreak vengeance on the supposed extortions of John W. Gully. The parties at the jail seemed exulted, and he heard some talk among them.

FIGHTING THE JAIL. He took no part in the proceedings either way, and left in the early part of the day to town, where his afterwards saw the body of Guller. He did not see the shooting of this unfortunate man, and only knew about it from what he had told by others.

JAMES A. Jenkins testified that he was on the streets of DeKalb when the affray occurred. When the Sheriff arrived to arrest Judge Chisolm and conduct him to the jail he was selected by the Sheriff, at Chisolm's request, as one of the guards to conduct him to the jail, and to protect him from the mob. After having performed this duty, he retired, and saw John F. Gilmer, who had passed up the street. Virgil Gully, who had been shot in the back, Gilmer passed, and raised his gun and shot him in the back. Gilmer did not apparently notice his assailant when he passed him, and when shot ran up a small alley shouting that he was killed. There were two more shots fired by Gully at Gilmer, which he heard but did not see. Gully pursued Gilmer through the alley, and shot him in the street beyond. The man fell in the street, and witness, with the assistance of others, picked him up and carried him into a store.

WHEN LIFE WAS EXTINCT. We did not see the shooting of the other men, but as soon as bodies fell, witness said the witness at the stand as an experiment witness. Two colored men were put on the stand, who testified respectively to the circumstances of the shooting of Gilmer by Virgil Gully, but neither of them could throw any light upon the killing of Miss Cornelia Chisolm. They saw nothing of that. They stated that they were standing in the Court-House yard when Gilmer passed along the street on the other side. They heard Virgil Gully say, "Here's this—d—d son of a b—tch, I'll never let him go to jail." After Gilmer had shot himself in the back, Gilmer ran up the alley, and got behind a house where they could not see what was going on, but they heard guns fire, and afterwards saw Gilmer dead.

Two colored men were put on the stand, who testified respectively to the circumstances of the shooting of Gilmer by Virgil Gully, but neither of them could throw any light upon the killing of Miss Cornelia Chisolm. They saw nothing of that. They stated that they were standing in the Court-House yard when Gilmer passed along the street on the other side. They heard Virgil Gully say, "Here's this—d—d son of a b—tch, I'll never let him go to jail." After Gilmer had shot himself in the back, Gilmer ran up the alley, and got behind a house where they could not see what was going on, but they heard guns fire, and afterwards saw Gilmer dead.

POINTER OR FIFTY MEN. mostly friends of the Gullys, and all of whom believed that the parties against whom warrants had been issued were accessories to the death of John W. Gully some time before. They finally agreed to assemble the next morning at Gully's farm, where the next meeting was to be held, and go to DeKalb for this purpose. These witnesses did not meet with the rest for the purpose of going to DeKalb, for the reason that Hopkinson was a distant kinsman, and they did not wish to take any measures against him. They were both at DeKalb the following day, however, in time to witness some of the exciting events which occurred at that place. Neither of these witnesses saw the shooting of Miss Chisolm, or were able to throw any light upon the part in the bloody drama played by the defendant, Henry J. Gully. They did see Virgil Gully shoot Gilmer in the back at least once. One of them saw far refreshed his recollection as to remember having seen Stocum Gully.

FIRE AT THE JAIL. The Chisolms were inside of it, but he couldn't for the life of him tell whether that random shot took effect on the woman and children or not. These witnesses both of them saw Gilmer after death, and viewed the mortal remains of McLeish in the jail-yard after the body had been perforated by the bullet-holes, but not fortunately for the ends of justice, they did not leave any of the murderer's body. They heard several shots in different parts of the jail-yard and on the street, but could not tell by whom they were fired or with what a.

DURING THE DAY. There was no evidence adduced which bore very strongly against the accused, most of the witnesses failing at the important point. The prosecution was particularly discredited with the testimony of hopper, who, it is understood, made statements privately which are far more conclusive than those made upon the stand to day.

There are some forty or more witnesses to be examined, which will consume the balance of the week.

THE KIDS, Miss., Sept. 9.—The trial of Henry

Gully for the murder of Cornelia Chisolm was continued to-day.

C. Slocum, witness for the State, testified that on the 29th of April, 1877, he was Sheriff of Kemper County; that warrants were placed in his hands for the arrest of Chisolm and other parties charged with the murder of John W. Gully. He had despatched his parties to secure his man, and sat in making the arrangements for his might need assistance. He found Chisolm at his home, and told him his business. Chisolm laughed at it. He placed men to guard Chisolm. A crowd during the morning collected about the house. Among them was Henry Gully. Chisolm sent for his to come to the house. On arriving, Chisolm said to Gully: "You think I killed your brother John Gully?" Gully responded: "If you didn't kill him, your money hired him." Chisolm did not deny this, but only replied: "I don't want to die just now." Witness objected to McLellan, a Scotchman, going as a guard to the jail, because he feared some danger would befall him on account of his being a Republican. He knew McLellan to be distrustful to the crowd.

AN INSANE MURDERER. New York, Sept. 9.—An Englishman, the passenger of the steamship Arizona, who killed Mrs. Jones, assistant steward, has been discharged from arrest on the plea of insanity. The British Consul, who filed the complaint, United States Consul, and Oshkosh holds that, if Gully was insane when the act was committed, there was no evidence of criminality; and, if no evidence of criminality existed, then there could be no crime.

ARRESTED FOR EMBEZZLEMENT. Special Dispatch to The Tribune.

GRAND RAPIDS, Mich., Sept. 9.—D. Neilson, Treasurer of Chippewa, who drew \$900 from the First National Bank of Big Rapids, and claimed to have been knocked down and robbed, has been arrested for embezzlement.

POST-ONED. NEW YORK, Sept. 9.—The trial of Rev. H. H. Hayden, for the murder in Madison of Mary Standard a year ago to-day, is postponed to the first Tuesday in October, counsel for the prosecution thinking it impossible to finish the trial at the present term of court.

MURDER TRIAL. BRIDGEPORT, Conn., Sept. 9.—The trial of William Buckholz, servant of John H. Schule, for the murder of his employer at South Norwalk on the 27th of December last, was begun to-day.

INCENDIARISM. BALTIMORE, Md., Sept. 9.—Collector Thompson reports that the life-saving station at Cobb's Island, burned on the 27th of August, was fired by incendiaries.

NEW TRIAL GRANTED. WILKES-BARRE, Pa., Sept. 9.—Joseph Schiele, sentenced to death for the murder of Jacob Schwab, has been granted a new trial.

WASHINGTON. SPECIAL DISPATCH TO THE TRIBUNE.

THE FIREMEN'S NATIONAL CONVENTION.—A NEW POSTAL SYSTEM.—GEN. GRANT AND THE DARING CANAL SCHEME. Special Dispatch to The Tribune.

WASHINGTON, D. C., Sept. 9.—Matt Benner and Superintendent Bulwinkle, representing the Chicago Fire Department, are here in attendance upon the National Firemen's Convention. Mr. Benner at the meeting last year was appointed on several committees, and comes here to report on the work to which he was detailed. The Consolidated Fire-Extinguisher Company of Chicago has sent here to exhibit at this Convention a new extinguisher, which arrived this morning. Mr. Steck, Superintendent of the Custom House, has presented strong circumstantial evidence that it was a deliberately-conceived plan to separate the sisters. Be that as it may, nothing was seen of the Mountaineer, the young and popular companion of the girls, until late on Sunday night, when a carriage halted in front of their parents' residence, and her protestation was carried by two disengaged persons from the front door, the manipulations of one of the unknown men. The unfortunate girl was laid upon the floor, and the men hastily departed before the inmates of the house could intercept them. When the parents came to where their daughter lay, they found her a raving maniac, and from her words seemed to think that Chicago could not produce good workmanship.

Secretary Everts is said to be opposed to the appointment of Gov. Fenton as Minister to England, and is standing by him.

Mr. Blackman, Superintendent of the Division of Foreign Mail in the Post-Office Department, has recently been confirmed by the Senate.

Mr. Blackman is much admired by fire engineers and Superintendents, many of whom seem to think that Chicago could not well afford such a man.

LOCAL POLITICS.

Conference of the Republican Central Committee.

How Shall the Defects in the Primary System Be Remedied?

Fifteenth Ward Republicans—Micellaneous Meetings.

REPUBLICAN CENTRAL COMMITTEES.

A joint meeting of the County and City Republican Central Committees was held at the Grand Pacific last evening, in pursuance of a resolution adopted by the last City Convention, suggesting a conference "with a view to providing for a radical reform of the primary system, so that its abuses may be corrected and purity and honesty secured, to the end that the primaries may become in fact the real voice of the voters of the ward, and especially that repeating, importation, and Democratic voting may be suppressed and prevented; such reforms to be put into operation for the fall election." There were present fourteen members of the City and fifteen members of the County Committee. D. J. Avery was elected Chairman and Samuel Collyer Secretary.

Some little time elapsed before the meeting got started, no one seeming anxious to express himself. Finally, Collyer at last opened the ball by saying that there must have been a reason for offering the resolution. Evidently there was trouble somewhere. The Fourteenth Ward Club had sent a communication to the Central Committee, asking it to consider a revision of the rules of the party, more particularly as to the expediency of curtailing the powers of the various Central Committees and the purview of primaries. The proposal was recommended by the Club were that judges of primaries be appointed by the Ward Clubs in connection with the Central Committee; that the primaries be held on the 1st of October; that the election be held on the 2d of October; that the election be held on the 3d of October; and that the election be held on the 4th of October. The grounds are the same as those which gave birth to the original proposal of Orenstein, and the number of signatures in favor of it are as follows:

ART NOTES.

Water Colors at the Exposition.—The Hassel.

To the artist and connoisseur the collection of water colors in Gallery C, Exposition Building, will offer as many attractions as any other portion of the Art Hall, not even excepting the loan collection of oil paintings in the adjoining room. To the general public they are not so taking, simply because they are not so large and apparently not so illuminated with wealth of color. There is, however, a gradual awakening in favor of water-color art, and with the annual occurrence of these exhibitions the day is not far distant when this branch of the limner's profession will meet with as much popular favor as it has already received in England and France.

The general tone of the collection is quiet and tender, largely given to pastoral scenes. There is scarcely an attempt to depict Nature in her wilder moods, and in the figures places only the most trivial and commonplace of domestic incidents have been portrayed.

"Autumn on the Delaware" (305), is a transcription in minor key of the hazy atmosphere and brilliant coloring of an October day. Different in tone, but in perfect harmony with the subject, is "An Eager and a Nipping Air" (300). Both are from the studio of Jervis McEntee. Three of the most pronounced pictures in the collection, "A Roadside Scene" (300); "Scenes in the Woods" (300) and "Pines" (300) are from the easel of F. C. Currier, a young American artist who spent several years at Munich. They are distinguished by a treatment of the broadest possible kind. Huge splashes of color without shape or form, apparently without the slightest direction, form a picture in "The roadside scene" that, on near examination, betrays nothing but a colorless, shapeless, and tasteless attack of delirium. The "woods" are equally well drawn, trees, and there is a muddiness about the sunlight that fails from pure pleasure. "Pines" is remarkable. It is neither a good nor a bad picture, but it is uninteresting.

Bishop Harris at last opened the ball by saying that there must have been a reason for offering the resolution. Evidently there was trouble somewhere. The Fourteenth Ward Club had sent a communication to the Central Committee, asking it to consider a revision of the rules of the party, more particularly as to the expediency of curtailing the powers of the various Central Committees and the purview of primaries. The proposal was recommended by the Club were that judges of primaries be appointed by the Ward Clubs in connection with the Central Committee; that the primaries be held on the 1st of October; that the election be held on the 2d of October; and that the election be held on the 3d of October. The grounds are the same as those which gave birth to the original proposal of Orenstein, and the number of signatures in favor of it are as follows:

BURLINGTON, Ia., Sept. 5, 1879.—The Rev. S. McChesney, Chicago: Are you prepared to enter a proposition for transfer to this Conference?—Maurice Stansbury.

To this telegram Mr. McChesney replied, "I cannot come."

A second telegram came from Bishop Harris, presiding over the Iowa Conference, as follows:

BURLINGTON, Ia., Sept. 6, 1879.—S. McChesney, Chicago: Would you come to the First Church, Burlington, for a discussion of old Zion and Division Street Churches?

WILLIAM L. HARRIS, Bishop.

At the same time that Bishop Harris sent this telegram to Mr. McChesney he telegraphed to Bishop Morris in the city as follows:

BURLINGTON, Ia., Sept. 6, 1879.—S. McChesney, Chicago: I want McChesney. Have telegraphed him. See him and help me. WILLIAM L. HARRIS.

Mr. McChesney visited Bishop Morris, but that functionary would not hear of his declining the offer, remarking that he could not talk with him, as (he said) (Bishop Morris) had been retained on the coldest terms.

Yesterday came another urgent telegram, which is given, with Mr. McChesney's answer:

BURLINGTON, Ia., Sept. 8.—S. McChesney, Chicago: I want you. The Church unanimously asks for you. The appointment is first-class. Will you come to Burlington?—Anson D. Bishop, Bishop Andrews.

To this telegram Mr. McChesney replied, "I cannot come."

A second telegram came from Bishop Harris, presiding over the Iowa Conference, as follows:

BURLINGTON, Ia., Sept. 8, 1879.—Your transfer will be announced in the morning. Conference.

Mr. McChesney stated that the church to which he has been called is a very strong one, both in regard to the size of the congregation and its property, the combined members of the two churches named reaching 500, while their real estate is worth in the neighborhood of \$40,000. It is their intention to build a new church shortly; in the meantime the Zion Church will be occupied by the united bodies. He stated that he left his congregation in the Park Avenue Church with regret, adding that the Park Avenue Church is the best in the North Division, and that he had the opportunity to do a great deal of good there.

The sky and rocks foreground in the "Mountain Side" (302) are all that the most careful student of nature could desire.

Mr. Bowes spoke of the trouble in the Fourteenth Ward of the two cities, and of the work done by Morris and County Commissioner Meyer, who were expelled and taken back. They had been defeated at the primaries and didn't like it, and hence sent out the letter. The "Rocky Mountain Side" (302) is a fine picture, and the "First Step" (302) is a copy of the "Rocky Mountain Side" (302).

Mr. Bowes had no objection to reforming the Republican party if it needed it, but he had no time to waste in trying to settle his judgment, and could not be settled by his judgment, but he had a better than primary system for choosing delegates could be devised. He doubted whether there was a ward in the city where truant votes were not polled at the primaries, and that always a few votes were cast for them.

Mr. Bowes recommended the Committee to the Republican party if it needed it, but he had no time to waste in trying to settle his judgment, and could not be settled by his judgment, but he had a better than primary system for choosing delegates could be devised. He doubted whether there was a ward in the city where truant votes were not polled at the primaries, and that always a few votes were cast for them.

Patrick Burke, 16 years of age, while riding a horse, was injured internally by the horse stumbling, falling, and rolling upon him. He was carried into Dr. Abbott's office, where he was taken to his home. It is thought he will recover.

The Faculty of the Women's Medical College held a meeting last evening at the Sherman House and made some arrangements for the lecture season, which will commence the first of October. Professor Frank, of the College of Materia Medica, was granted a leave of absence of one year in which to visit Europe. Drs. Maynard and Brower were selected to deliver the first lectures, and the meeting adjourned.

The Illinois State organization of Mexican War Veterans will hold an annual reunion in this city Thursday and Friday. The business meeting will be held at the Grand Hotel, and the veterans will have a grand reception and reunion, to which all ladies and gentlemen are cordially invited. Thursday evening at 8 o'clock, at the arms of the First Regiment, on Madison street. At this reception, several addresses will be delivered, and a pleasant evening may be expected.

A team of horses attached to a wagon owned by Steele & Price, of No. 105 Randolph street, were惊起 from the corner of May and Lake streets, where they had been left standing unattended, and ran south to Madison street, and dashed into the path of a team of horses owned by P. H. Hayes, of No. 50 Adams street, slightly damaging it. The team was captured by Henry Barnes, of No. 105 West Madison street.

Robert Smith, 15 years of age, while under the influence of liquor late Monday night attempted to ascend the stairs of his dwelling at No. 124 North Union street, but fell backwards and downwards when only eight steps from the bottom, and ran south to Madison street, where he did not suspect that he had been injured in the fall. At 7:30 in the morning they found him, a pool of blood, and Dr. Verity was called. His condition was very weak from loss of blood, but the Doctor thought he would recover with proper care.

The cheekiest man in the State showed up at the West Madison Street Station yesterday, while chopping in his own wood. He had his gun, which he had concealed in his vest-pocket. He went to the station and asked that two policemen be sent with him to recover the watch, as there was a large quantity of money in the pocket. He was not successful in his endeavor to be withheld from the press. He was not accommodated, and went off in an angry mood. His name is Read, and he lives at No. 105 North Dearborn street.

The independent Order of Red Men met yesterday morning at the Drury's Hall, corner of Madison and Dearborn streets, and began the annual session. Delegates were received from Maryland, Ohio, Illinois, Pennsylvania, New York, and the District of Columbia. The regular meetings were held from which it appears that the Order has a membership of 7,411, with a total capital of \$17,737. The amount paid out during the year for charitable purposes was \$44,216. The convention will adjourn to session to-morrow evening there will be a grand banquet and ball. The principal officers are Mr. Rau, of Baltimore; Albert Felix, of Chicago; S. W. Gandy, of Philadelphia; and Martin Weiss, of Baltimore.

Albert Cudney, for many years a resident of this city, died Monday at Geneva, Ill., of consumption. Cudney was well known here, had many warm friends, and was regarded as a man of great worth, heart and mind. His military record includes a service in Company D, First Pennsylvania Volunteers (Col. Winkworth commanding), in the Mexican War, and Captain of Company B, Second Illinois Cavalry, during the war with Mexico, during which he had a membership of 7,411, with a total capital of \$17,737. The amount paid out during the year for charitable purposes was \$44,216. The convention will adjourn to session to-morrow evening there will be a grand banquet and ball. The principal officers are Mr. Rau, of Baltimore; Albert Felix, of Chicago; S. W. Gandy, of Philadelphia; and Martin Weiss, of Baltimore.

The regular weekly meeting of the First Red Ribbon Reform Club was held last evening at No. 157 Twenty-second street. The attendance was good. The amount of money saved was quite large. Mr. F. W. Porter, the President of the Club, reported that the dues up to Aug. 1 amounted to \$373, and the liabilities up to date to about \$200. A noted person by the name of McElroy pointed out his name, which was followed by one Y. Ong, who easily acknowledged that he had been dissatisfied—taken a few glasses of beer too much—and he was asked to come back next week. He was taken to see Dr. Tracy, who is a noted physician. His age was about 35 years.

Porter, the President of the Club, reported that the dues up to Aug. 1 amounted to \$373, and the liabilities up to date to about \$200. A noted person by the name of McElroy pointed out his name, which was followed by one Y. Ong, who easily acknowledged that he had been dissatisfied—taken a few glasses of beer too much—and he was asked to come back next week. He was taken to see Dr. Tracy, who is a noted physician. His age was about 35 years.

On a regular weekly meeting of the First Red Ribbon Reform Club was held last evening at No. 157 Twenty-second street. The attendance was good. The amount of money saved was quite large. Mr. F. W. Porter, the President of the Club, reported that the dues up to Aug. 1 amounted to \$373, and the liabilities up to date to about \$200.
